How to Measure... for the Series 2500 Aluminum Door Canopy

Door canopies make a better home. After you install your fabric door canopy or aluminum door canopy, add window awning kits for shade, or retractable awning kits for sun protection. Door canopies offer great sun protection or protection from the elements for any entranceway. Trust us for quality products at discounted prices.

Step - 1 Choose the combination of DROP & PROJECTION, using the chart below, that best suits your needs. If you are mounting over an out-swinging door, then choose at least a model # 7.

Step - 2 Measure outside of door casing - edge to edge. Add at least 3" to 5" on each side of door for proper appearance. Make certain that any light fixtures are not in the way of installation.

Step - 3 All canopies will be shipped with Support Arms only unless **OPTIONAL SIDE-WINGS** are ordered.

- If you use support arms only, you will require 6" of mounting space over the door.
- If you use side wings, you have 2 height choices...

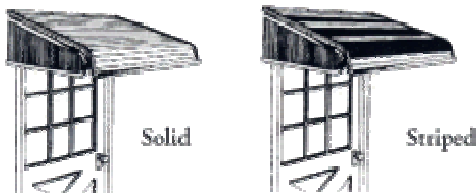

1. STANDARD height above the door requires at least 13" (B)
or...

2. LOW PROFILE if you do not have sufficient height, which only requires 6" above the door (B).

| Canopy Model # | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|--|-----|-----|-----|-----|-----|-----|-----|
| Projection | 20" | 26" | 32" | 37" | 44" | 50" | 55" |

| Drop Approx. | 12" | 13" | 15" | 16" | 18" | 20" | 21" |
