## How to Measure... for the Series 2700 Fabric Door Canopy

Door canopies make a better home. After you install your fabric door canopy or aluminum door canopy, add window awning kits for shade, or retractable awning kits for sun protection. Door canopies offer great sun protection or protection from the elements for any entranceway. Trust us for quality products at discounted prices.

**Step - 1** Choose the combination of DROP & PROJECTION, using the chart below, that best suits your needs. If you are mounting over an out-swinging door, then choose at least a model # 7.

**Step - 2** Measure outside of door casing - edge to edge. Add at least 2" to 5" on each side of door for proper appearance. Make certain that any light fixtures are not in the way of installation.

**Step - 3** Measure from the top of the door (B) to determine available space for mounting. The fabric door canopy is made to require a STANDARD height above the door of 13" (B)

Note: Get the width you need...all widths available in 1" increments.
